

Preamble

A substantial fraction of the national growth of the 21st century has been derived from advances in science and technology and their applications in manufacturing, infrastructure, energy, health, environment, information and communication technologies, resource management and many other sectors through mastering the adoption, adaptation and advancement of existing technologies, as well as the creation of new ones. Innovation refers to the full range of changes, large and small, used to achieve desired outcomes and innovation often results from basic research that can lead to ground breaking discoveries and inventions.

The cardinal point of importance of the conference aims at enriching and enhancing the quality of innovation research of the issues at the core of national growth through developments in the sectors of science and technology by managing those applying modern scientific management techniques and conveying them through effective and efficient communication skills.

Innovations will be essential in combating the challenges which cause hindrances to National Growth. The proposed conference will put an honest attempt to meet up the expectations of the common people in developing the nation through innovations.

The Institute

Bhilai Institute of Technology initiated by few notable stalwarts of central India in 1986 has now evolved as one of the premier Technical and Management Institute of this part of the country imparting quality education and providing environment for academic research. BIT campus has a conducive and supportive academic ambience facilitating high quality education and research for about 3000 students of graduate, post graduate and doctoral programmes. Five of its undergraduate programs have been accredited once gain in 2017 by the National Board of Accreditation (NBA) and the institute itself has been A grade accredited by the National Accreditation and Assessment Council (NAAC) in 2017. The institute stands in 150-200 NIRF rank - band in the category of Engineering in 2018 rankings. The institute has an installation of ISO 9001:2015.

BIT is well connected through Rail network as well as Air network of the country. BIT is at about 1km distance from the Durg Railway station on Howrah-Mumbai line and is about 45 km away from the Swami Vivekanda Airport at Raipur, the capital city of Chhattisgarh state.

The Department

The Department was established right at the inception of the Institute in 1986 and is NBA accredited since 2005. It offers a vibrant environment for undergraduate, postgraduate education and research in Electrical Engineering. Faculty members along with their research scholars and students are involved in various research activities. The major areas of faculty expertise includes Control Systems and Computing, Power Systems, High Voltage Engineering, Electrical Machines and Drives, Power Electronics, Instrumentation, Digital Signal Processing, Communication Systems and Optimization. It is well equipped with modern laboratory facilities and balanced emphasis is laid on both theory and experimental work.

Conference Objective

The conference aims to provide a platform for researchers, academicians, scientists, industrial practitioners and students to exchange and share their research accomplishments, achievements and new ideas on the contemporary and emerging trends in the field of Sustainable Energy Research and Applications. The event will provide a forum for the exchange of knowledge, expertise and experience; and the absorption of these ideas in academic curriculum and industrial practices. It is therefore intended to assist researchers, scientists, manufacturers, companies, communities, agencies, associations and societies to keep abreast on new developments in their finding alternative energy specialties and to unite in solutions to current issues such as the greenhouse effect, sustainable and clean energy issues
