# 7.1.5 Green campus initiatives

Our college appraise it momentous in implementing green concepts in the campus. Our college believes in education combined with environmental friendly practices to promote imperishable development. The infrastructure and capability available on campus are the very best. The BIT campus extents in a spacious, noise free, clean, green zone and serene atmosphere perfectly suited for technical education. It is absolutely self-contained campus comprising everything that students on campus would ever require. Though implementing green initiatives are challenging and require determination and a long-term commitment, our college is taking initiatives in the right direction. The following practices are undertaken by the college.

1. Restricted Entry of Automobiles

To prevent huge vehicles from accidentally entering the campus, our institution established a restriction on automobile admission.

2. Pedestrian friendly pathways

Campus has sufficient space for parking vehicles. Roads inside the campus are well maintained. Pedestrians can walk safely through the campus through walk friendly pathways. Security people are assigned duties on every turn and crossing to the campus.

3. Ban on the use of plastics

Sustaining cleanliness is the essential part of healthy living because it is hygiene and helps us to develop our personality by keeping us clean externally and internally. We had "Plastic free zone" to create awareness among the community as whole to stop the pollution and leave behind a green and pollution free place for our future generations.

4. Landscaping with Trees and Plants

Within the campus, the institution maintains a clean and green environment. By establishing a distinct estate maintenance wing, the Institution ensures the preservation of the environment. It maintains the lawn and plantations by employing gardeners and sweepers. Our institution is more concerned with keeping a green campus and being environmentally friendly, which ensures that pure oxygen is available throughout the building. The campus has been made greener by the addition of more trees, providing a pleasant environment for students to learn in and faculty members to work in.
