### CORENET GLOBAL ACADEMIC CHALLENGE 2018

Your ideas could earn you world travel and global networking with the greatest minds in corporate real estate.

We invite students from around the world to think creatively about a problem facing real estate professionals for renowned companies like Google, Duke Energy, AstraZeneca, Whirlpool, and many others. In exchange? Travel the world with an all-expense paid trip to one of our Global Summits in Asia or North America. Challenge your mind power by competing with your peers from around the world.

**Win US \$5,000 for your team.**

Student teams from universities and academic institutions around the world are invited to compete in an academic challenge whereby students will be asked to play the role of consultants in order to address a real-world issue facing companies around the globe: Identify the potential technology disruptors most likely to impact your client's global corporate real estate footprint and create short-term and long-term strategies that put corporate real estate at the forefront of technological innovation – and enable business success.

**EACH TEAM MUST HAVE A FACULTY ADVISOR; INDIVIDUAL STUDENTS ARE NOT ELIGIBLE TO COMPETE.**

## NASA's BIG Idea Challenge

### **2019 Marsboreal Greenhouse Design Challenge**

The BIG Idea Challenge is managed by the National Institute of Aerospace (NIA) on behalf of the National Aeronautics and Space Administration (NASA).

The Breakthrough, Innovative and Game-changing (BIG) Idea Challenge is an initiative supporting NASA's Game Changing Development Program (GCD) efforts to rapidly mature innovative/high impact capabilities and technologies for infusion in a broad array of future NASA missions.

### **The 2019 BIG Idea Competition**

Participation in the BIG Idea Challenge is open to teams of undergraduate and graduate students studying in fields like human space exploration (i.e., aerospace, electrical and mechanical engineering and life, physical, and computer sciences). The BIG Idea challenge allows students to incorporate their coursework into real aerospace design concepts and work together in a team environment.

### **ALL BIG IDEA PROJECTS SHOULD GIVE SPECIAL ATTENTION TO:**

- Innovative Design
- Creative operational approaches
- Use of technologies that could be ready for use on Mars in the early 2030s
- Effective packaging for launch and Mars landing
- Effective and reliable deployment methods
- Credible fabrication and material selection
- Concept of Operations (ConOps)
